

STEPS FOR MAKING TRUNCATED TETRAHEDRON

STEP 1: Get the net.

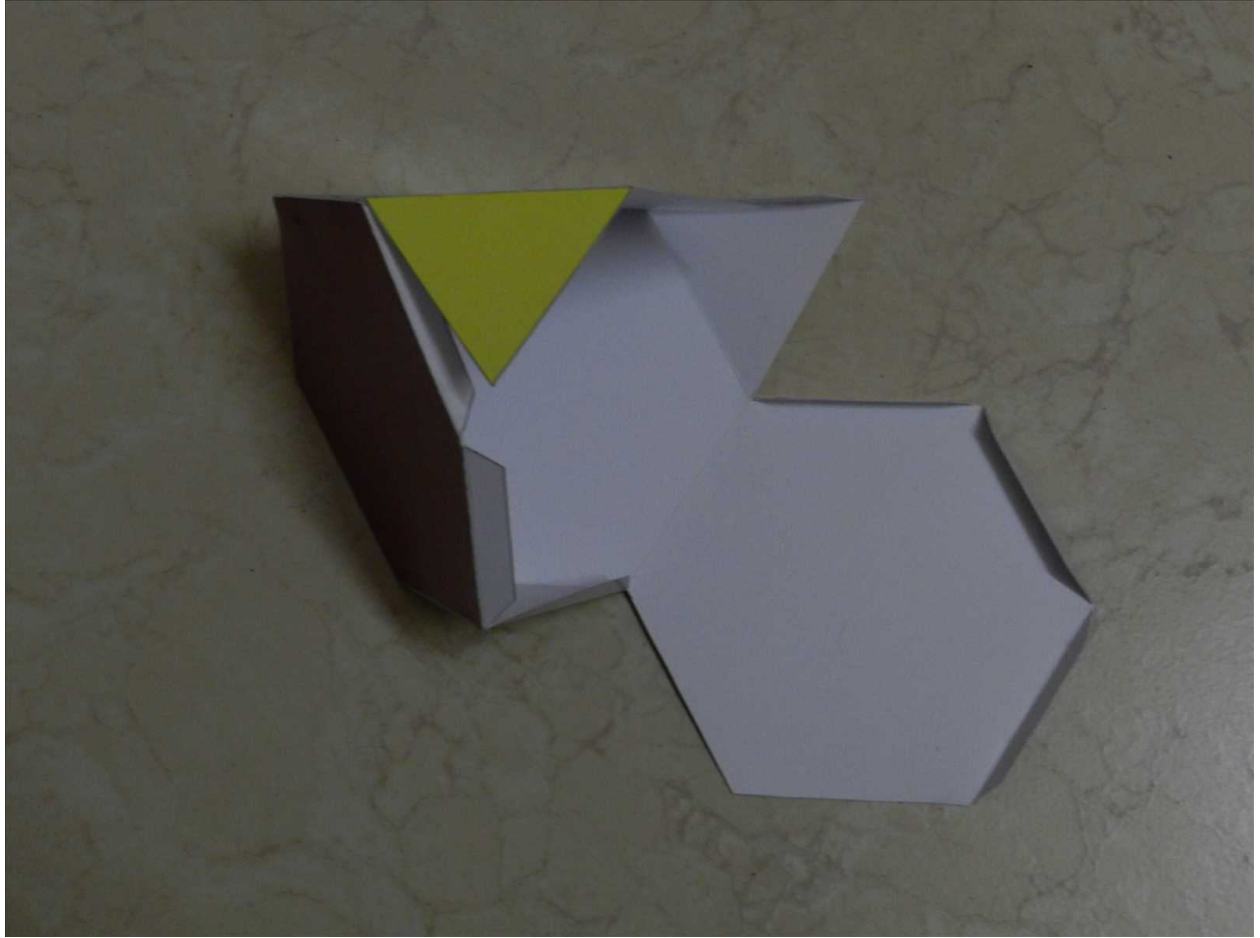

STEP 2: Cut out the net along the edges (along with flaps).

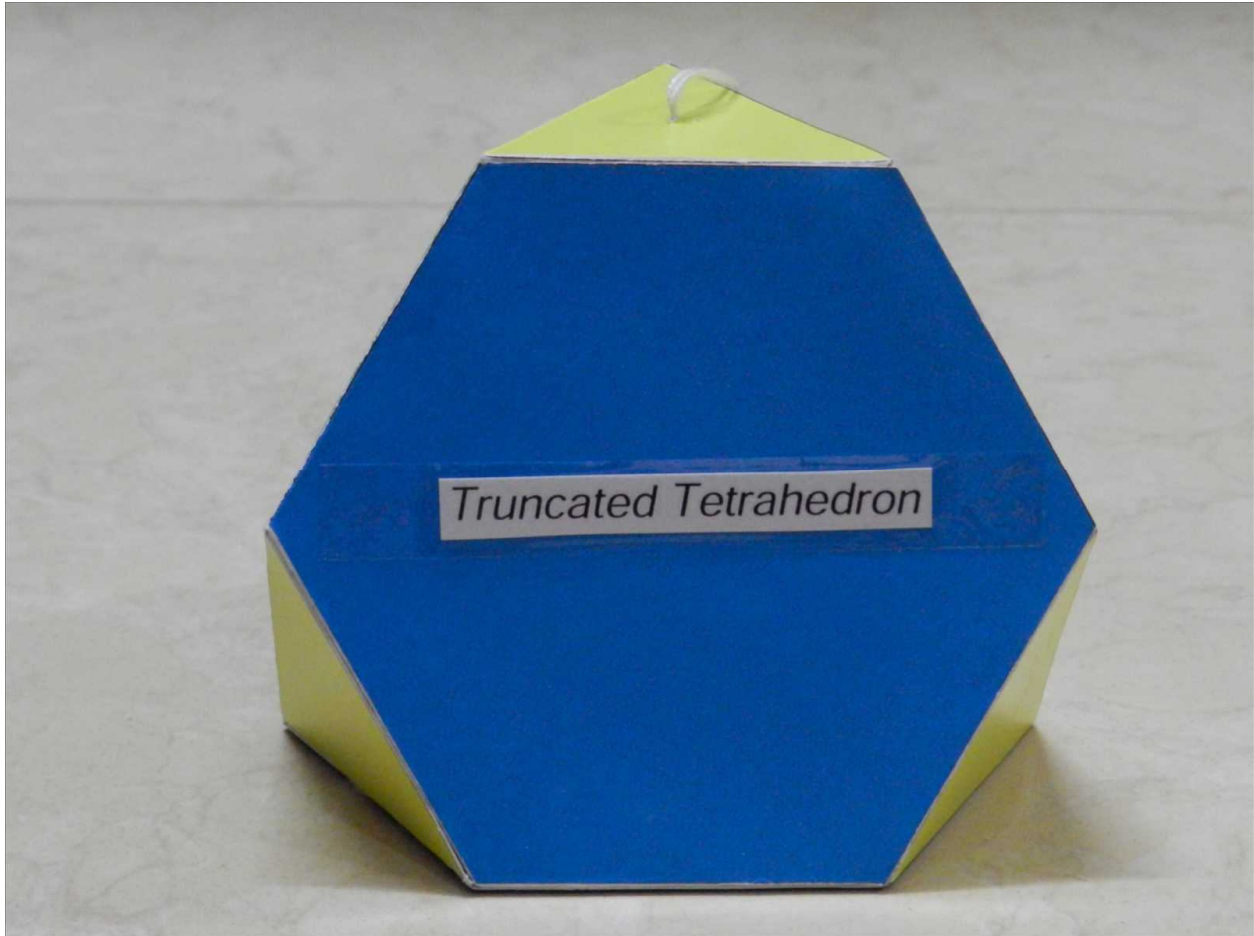

STEP 3: Ready with net.

STEP 4: Fold it along edges. You may use a cutter for giving half cut at edges so that you can fold it easily.

STEP 5: Fold it along edges as shown and paste the flaps using fevicol.
You need lot of patience. Be sure about the neatness.

STEP 6: And here is the final product i.e. a solid TRUNCATED TETRAHEDRON.
